Comment/Suggestion Form

The CGSA Comment/Suggestion Program is designed to provide every player/parent an equal opportunity to share his or her ideas, concerns or suggestions on how we can make CGSA function better. Although the form asks for personal information, anonymous suggestions may also be submitted and will be considered. Of course, providing contact information allows for follow up questions and discussion regarding the suggestion that have been submitted. The CGSA Suggestion Form does not deal with grievance matters, i.e. problems on the team or personal grievances as those items should be submitted through the normal channels in place to deal with such matters, starting with the division commissioner (as listed on the CGSA website).

Thank you for taking the time to share your comments, ideas and suggestions!

Please complete all questions below. If you require additional room please use the back of this form.
